DETAILED ACTION

1. Claims 39-48 are pending in this communication filed 3/10/06 entered as Response After Non-Final Action and Request for Extension of Time. The IDS filed 08/08/06 has been reviewed and entered.

Allowable Subject Matter

2. Claims 39-48 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose collecting with a first processing device data stored in the first processing device according to a predetermined collecting condition in response to the occurrence of an event that serves as a trigger and transmitting by the first processing device the collected data to the processing device or to a second processing data of an original data request side. For these reasons claims 39 and 42 are deemed to be allowable over the prior art of record, and claims 40, 41, and 43-48 are allowed by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chan et al (US 5,303,235) discloses a telecommunications management network with integrated network elements.

P. Bernus and Papazoglou, M. P. disclosed an integrated heterogeneous distributed information system.
